Ottawa posts surplus of \$5.3B for first two months of 2022-23 fiscal year

Parliament Hill stands in Ottawa, Ontario, Canada, on Thursday, Aug. 16, 2018. It makes sense for the U.S. and Mexico to meet bilaterally on Nafta on certain issues and Canada looks forward to rejoining talks on the trilateral pact in the coming days and weeks, Prime Minister Justin Trudeau said. , Bloomberg

In an effort to preserve and even build up capacity for seafood harvesting, the T'Sou-ke First Nation on southern Vancouver Island turned to Victoria-based MarineLabs, which collects real-time data about the ocean, about 18 months ago to better understand what's going on in the Sooke Basin and other areas it uses. Trudeau announces deal for new electric-vehicle battery plant in Ontario

Speaking at Queen's University in Kingston, Ont., today, the prime minister says the facility will supply materials for one million electric vehicles a year.

Trudeau says the new plant will create one thousand jobs while it is being built and hundreds of long-term positions once it is up and running.

He says the government and industry investments are part of a "big bet" that Canada can be a key international player when it comes to electric-vehicle supply chains. Click here to read [more..](#)

Feds lay out options for oil and gas industry emissions cap

The Canadian government released potential designs for an emissions cap on the oil and gas industry, the next step in Prime Minister Justin Trudeau's plan to cut emissions in the sector by 42 per cent by 2030.

Environment Minister Steven Guilbeault published a discussion paper on Monday that outlined two regulatory options. Click here to read [more...](#)

Guyana to host regional energy summit as alliance seeks US\$1 trillion for solar energy

On the heels of the three-day event, the ISA's Director General Dr. Ajay Mathur stated that the alliance is working towards mobilising US\$1 trillion of investment for a massive deployment of solar energy technologies aimed at expanding the market. [Click here to read more...](#)

**GO LOGISTICS**

GO Logistics has been the catalyst for the GO Integrated Group of Companies.

Go Logistics started in 2005 in response to the demand for a flexible final mile player in the delivery ecosystem – the gap between the national postal system and the multi-national courier conglomerates. It presented an opportunity for them to offer the same high level of reliability with an entrepreneurial mindset, expand operations, and introduce collaborative service innovations to meet the fast-changing marketplace.

Through this, they attained many hallmark accomplishments, from onboarding Amazon for their Canadian launch in 2016, to offering same-day e-commerce delivery, to launching a dedicated big and bulky division, GO to Home, in 2019.

In 2020, the “Globe and Mail Report on Business” and “The Financial Times Fastest Growing Company” lists recognised their outstanding corporate performance in Canada and the Americas, respectively. GoLogistics’ founder, Anthony Whyte, has been equally active in creating social dividends with their success while serving hundreds of customers, creating thousands of jobs, and generating millions of dollars in value for their partners.

GO LOGISTICS GUYANA

In 2021, GO Logistics looked south for its new venture, launching GO Logistics Guyana. The division established its base with comprehensive knowledge of the unique challenges many companies face when expanding into Guyana.

Outstanding achievements:

Hosted the first International Energy Conference and Expo in 2022 in Georgetown, Guyana, and launched their 2023 event under the theme: “ Harnessing Energy for Development.”

**EXCEL GUYANA**

For more than three decades, Excel Guyana’s leadership team has been consulting with internationally recognized companies and building businesses in Guyana and the CARICOM region. Excel Guyana Inc. is a 100% Guyanese-owned business.

Recently, Excel made headlines by becoming the first Guyanese company to earn its Integrated Management Systems (IMS) Certification with the implementation of three ISO systems including the ISO 9001:2015 Quality Management System, the ISO 45001:2018 Occupational Health and Safety Management System, and the ISO 14001:2015 Environmental Management Systems.

Excel’s Recruiting division also received accolades, hosting a Mining Industry Career Fair to build a pipeline of potential candidates for another 1,500 jobs that are expected to come online in the next two years. The event attracted more than 1,000 local job seekers, applying for all levels of mining operations. As a Recruitment Process Outsource partner, the organization is working with a variety of industries to fill essential positions.

Additionally, Excel’s Procurement and Supply Chain management division has been forging relationships with some of the world’s premier factories and manufacturers to provide direct access to thousands of essential aggregates, heavy machinery, and construction materials for local infrastructure development. The organization exclusively represents suppliers like Pauny, HAMAC, Shengli Oilfield, Chengdu Deepbit, and more.
